Dear Friends and Well Wishers

We are immensely pleased to present our Annual Report detailing our activities during the year 2020-2021.

Suddenly and unexpectedly, in the month of March 2020, entire world started facing a major health crisis with COVID-19 pandemic. Due to COVID-19 pandemic, prevention, treatment services for non-communicable diseases (NCDs) and planned surgeries for needy patients had been severely disrupted worldwide. This situation was of significant concern because people living with NCDs were at higher risk of severe COVID-19-related illness and death.

During this time, we started telemedicine services - agile and digitally connected to the patients, and we have been humbled by the response. During Lockdown, we ran our dialysis department, Retinopathy of prematurity unit, pathology laboratory, psychotherapy & generic medical store.

All along we had been maintaining COVID-19 protocols so that the safety of the non-COVID-19 patients was not compromised. We organized training for the staff - doctors, nurses and housekeeping staff to avoid risk of COVID-19 at our hospital. This had helped us to make our facilities completely safe for the treatment of normal medical and surgical procedures as they arised.

The entire Health and Care Foundation Family has risen to the challenge of caring for non-COVID patients. We would at this time, wish to acknowledge the efforts of our doctors, nurses and support staff who have shown strong determination and dedication in performing their duties. This gives us the confidence that we can overcome any challenge that may come our way and enable us to serve the needy patients.

In our efforts to reach out to more people in their needs, during last year, we launched project JATAN in partnership with MANAV SADHANA TRUST in which holistic development of children, women and community on whole to be done including distribution of nutritional food & medicine.

Due to COVID-19 pandemic and strict Government travel & other guidelines, footfalls of patients were highly affected at HCF hospital.

The success of Health and Care Foundation Hospital has always been about teamwork. We want to place on record our sincere appreciation and gratitude for all the hard work and support of Trustees, all Committee Members, YUVA team, esteemed Donors, Government of Gujarat, Ahmedabad Municipal Corporation, AUDA, Expert Doctors, staff, volunteers and other organizations which have helped us to be to where we are today.

Our warm regards for all.

Dr. Kalpan Desai
Trustee & Hon Secretary

Dr. Bharat Bhagat
Chairman

Dr. Prakash Bhatt
Trustee & CEO

HEALTH AND CARE FOUNDATION HOSPITAL SALUTES THE WARRIOR OF COVID-19

We salute and appreciate the Doctors, Para Medical staff and all those who supported the mankind in the entire world to come out from this pandemic by treating the patients by putting their duty first during such critical situation.

And at same breath, we convey our sincere thanks to those who helped us to continue emergency services in our hospital during COVID – 19 Pandemic.

COVID VACCINATION PROGRAM AT HCF

The global pandemic has already caused loss of hundreds of thousands of lives and disrupted the lives of millions more. Vaccines invented by the scientists have started helping the human race to defeat the pandemic.

At HCF we organized Covidvaccination program for 4 consecutive months and supported 4600 persons to get vaccinated. Under this program Medical, Para-medical staff, Front-line workers, senior citizens and co-morbid persons were benefitted.

HELPING PATIENTS BY PROVIDING OXYGEN CONCENTRATOR

During COVID-19 situation in the country, the demand for oxygen supplies had increased, as a large number of patients gasping for breath while down with corona and their relatives were found queuing up outside hospital premises; there were also a substantial number of infected individuals, who got themselves treated at home wanting supply of Oxygen.

HCF tried its best by arranging significant number of Oxygen Concentrators supported by different donors and helped needy patients in home isolation by providing Oxygen concentrators.

FOOD DISTRIBUTION

During the Corona Pandemic situation, with support of kind donors, HCF distributed approx. 13000 Meal packets to needy poor people in different areas of Ahmedabad to help them fighting hunger.

**NATIONAL HEALTH MISSION
DISTRICT EARLY INTERVENTION CENTRE
APPROVED BY GOVERNMENT OF GUJARAT
UNDER RASHTRIYA BALSWASTHY KARYAKRAM (RBSK)
FOR TREATMENT OF CONGENITAL BIRTH DEFECTS AND
OTHER PEDIATRIC CONDITIONS**

Considering the expertise of Health & Care Foundation Hospital in the field of congenital birth defects and other pediatric conditions, Government of Gujarat has given approval to the hospital of DISTRICT EARLY INTERVENTION CENTRE since 2015; under this banner, the hospital has been rendering complete diagnosis, treatment and surgery for 28 types of congenital birth defect totally free of cost to the patients up to 18 years of age.

<p>DEFECTS AT BIRTH</p> <ul style="list-style-type: none"> • Neural Tube Defect • Down's Syndrome • Cleft Lip & Palate / Cleft Palate alone • Clubfoot • Developmental Dysplasia of the Hip • Congenital Cataract • Congenital Deafness • Congenital Heart Diseases • Retinopathy of Prematurity 	<p>DEFICIENCIES</p> <ul style="list-style-type: none"> • Anaemia especially Severe Anaemia • Vitamin A Deficiency (Bitot spot) • Vitamin D Deficiency (Rickets) • Severe Acute Malnutrition • Goiter
<p>CHILDHOOD DISEASES</p> <ul style="list-style-type: none"> • Skin conditions (Scabies, Fungal Infection and Eczema) • Otitis Media • Rheumatic Heart Disease • Reactive Airway Disease • Dental Caries • Convulsive Disorders 	<p>DEVELOPMENTAL DELAYS AND DISABILITIES</p> <ul style="list-style-type: none"> • Vision Impairment • Hearing Impairment • Neuro-Motor Impairment • Motor Delay • Cognitive Delay • Language Delay • Behaviour Disorder (Autism) • Learning Disorder • Attention Deficit Hyperactivity Disorder <p>Congenital Hypothyroidism, Sickle Cell Anaemia, Beta Thalassemia (Optional)</p>

SHANTABEN KANTIBHAI PATEL (PATDIWALA) PEDIATRIC ORTHOPEDIC UNIT

The Pediatric Orthopedic Unit at HCF provides a broad range of care for congenital birth disorders of the skeleton, joints and muscles in children. The hospital has all the facilities to perform such surgery, including the modern operation theater with modern equipment. After surgery, we also provide calipers as per the requirements of beneficiary.

CLUBFOOT CLINIC**

Clubfoot is a congenital deformity in which an infant's foot is turned inward and downwards. It is not painful during infancy. However, if child's clubfoot is not treated, the foot will remain deformed, and he or she will not be able to walk normally. Approximately one infant in every 1,000 live births is likely to have clubfoot deformity.

At HCF, clubfoot deformities are successfully corrected with non-surgical Ponseti methods; baby's foot is gently stretched and manipulated into a corrected position and held in place with a long-leg cast (toes to thigh). For most infants, this improvement takes about 6 to 8 weeks followed by splints and physiotherapy. After casting period, few number of babies require Tenotomy surgery to release tightness in the Achilles tendon.

SPINAL CORRECTIVE UNIT
SUPPORTED BY
HEART FOUNDATION & RESEARCH INSTITUTE

Spinal column provides the main support to human body, allowing them to stand upright, bend, and twist, simultaneously protecting the spinal cord from injury. These structures affected by strain, injury, or disease can affect normal life.

In our spine department, we take care of children, suffering from congenital spine birth defects by investigation and treatment and corrective surgery is performed by expert surgeons in modular operation theater with modern equipment. Surgeries are critical, with duration of around 4 to 8 hours depending on severity and these are expensive. In our hospital, surgeries below the age of 18 years are done free of cost and for others MAA or PMJAY cards are accepted, and if not then surgeries are done at highly concessional cost.

Every year, team of Spinal Experts comes from USA & UK to perform critical spinal surgeries free of cost supported by IASA – USA to help the needy patients.

CORNEAL GRAFTING UNIT

Corneal disorders if severe make the cornea cloudy, scarred, and distorted, eventually leading to vision loss. Cornea transplant becomes necessary if eyeglasses or contact lenses can't restore your functional vision or if painful swelling can't be relieved by medications or special contact lenses. Corneal Grafting surgery involves surgical removal of the unhealthy cornea (either total or partial) and replacing it with a healthy, transparent donor cornea (complete or partial). In this unit, Expert surgeons perform cornea grafting surgeries free of cost. Shri Gautambhai Majmudar of C S Samariya Red-cross International Eye Bank of Ahmedabad has been supporting us by providing the eye balls without any charges.

**SCREENING OF DIABETIC RETINOPATHY AT OUTREACH CAMPS
SUPPORTED BY: SMT SMITABEN & SHRI KIRITBHAI SHAH (USA)**

Diabetic retinopathy outreach screening camps are often organized in community places by HCF to diagnose and treatment of this disease. The focus is on detecting diabetic retinopathy before it causes irreversible blindness and our team also refers the patients for further treatment like laser therapy or intraocular Injections to needy people.

**PARAMPUJYA ACHARYA SHREE KALYANSAGARSURISHREEJI MAHARAJ SAHEB
AMOLA SURENDRABHAI MANGALDAS KACHRABHAI PARIVAR (TITODAVALA)
RETINOPATHY OF PREMATURITY UNIT**

Retinopathy of prematurity (ROP) is an eye disease that can happen in low-birth weight premature babies. It causes abnormal blood vessels to grow in the retina, and can lead to blindness. For this a telemedicine project is run by hospital since last 9 years earlier supported by Government of Gujarat under the name of GIDROP. Under this project, our specialized team, as per schedule, visits different government, semi-government, municipal and private NICUs covering districts of Ahmedabad, Gandhinagar, Mehasana, Patan, Himmatnagar to screen pre-mature babies by RETCAM; the babies are diagnosed and according to the necessity provided treatment to save the vision.
